TWO PRIMARY BILLS KILLED

Sullivan Amendment Also Voted Down in the Senate.

NO CHANGE LIKELY THIS YEAR

Believed That Present Primary Law Will Be Allowed to Stand—House Kills Measure Allowing Saloons in Large Cities to Keep Open Until Midnight—Senate Committee Favors Anti-Cigarette Bill.

St. Paul, March 12.—There is little likelihood that the present primary election law will be changed at this session. The senate in turn defeated the Moonan bill for state-wide primary, the Sullivan amendment to the Canfield bill leaving the system as it is except for a primary system for the delegates to the state convention, and lastly, killed the Canfield bill itself, which abolishes the primary system except for the election of delegates to the conventions.

The senate spent the entire afternoon on the two bills and both John Moonan of Waseca and E. H. Canfield of Luverne and others gave able arguments in defense of their positions. Party lines were crossed in every direction and the three roll calls showed a wide difference of opinion.

Unless the house members change their opinions there will be no midnight lid law passed by this legislature for the house killed the O'Brien bill permitting cities of 50,000 or over to allow saloons to be kept open until midnight. The house seemed friendly toward the idea at first and was willing to include some other cities in the lid lifting. When the vote which indefinitely postponed the bill was announced, it came as a surprise. The vote was 48 to 35.

Amendments Voted Down.

When the bill came up H. Jorgenson of Mankato offered two amendments, one extending the bill to cities of the second class, which took in Wisconsin, and then one to cities of the third class, which took in Stillwater and Mankato. J. N. Johnson moved to

extend it to cities of the fourth class also, but this was voted down.

There was some jockeying on both sides, but the matter came to a real vote twice and each time the opponents of the bill won by about the same vote.

At the same session the committee of the whole acted favorably on Senator Alderman's bill limiting saloons to one for each 500 population. Some of the leaders of the temperance forces fought the bill, but were unable to attach any amendments.

The bill as it stands will allow any city to continue having as many saloons as it now has, but will not permit the licensing of new saloons when a city has one for each 500 people.

A resolution urging congress to take immediate action towards the construction of a canal between Lake Superior and the Mississippi river was passed in the house.

J. H. Dorsey of Glencoe is the author and his resolution recites that the freight tonnage at Duluth is the largest of any port in America; that the Soo canal carries three times as much freight as the Suez canal; that Minnesota ships each year 30,000,000 tons of ore and 300,000,000 bushels of wheat, and that 900,000,000 bushels of other grain are shipped from this section of the country each year.

To Connect Lakes and River.

The resolution adds that by a canal of fifty miles the Mississippi river could be connected with the lakes and this territory get the benefit of the lake shipping.

The 119 members of the house of representatives will go and see the proposed site for the Armour packing plant near New Brighton next Monday afternoon. When Speaker Rockne announced the committee of fifteen under the Conley resolution of Wednesday to go and look at the site, J. G. Lennon of Minneapolis, who at first had opposed the selection of a committee, made the motion to have the whole house go and look at the site. He said that Minneapolis would stand the cost. J. D. O'Brien of St. Paul objected to Minneapolis paying for an "impartial" investigation, and upon the suggestion of J. F. Selb, Lennon agreed that St. Paul pay half.

There is strong probability that the senate will pass the bill prohibiting the sale or gift of cigarettes, which passed the house at a night session under suspension of the rules. The bill was considered by the senate committee on public health and the sentiment of the committee was for passage, but the report was held up to allow merchants to be heard.

The bill was amended so that jobbers in this state may sell to customers in other states, and so that the bill will not take effect until Aug. 1.

A comprehensive inheritance tax bill was introduced in the house by T. Kneeland of Minneapolis and D. A. Stuart of Windom. It comes as an amendment to the present inheritance tax law, but the principal aim of the bill is to reach those who give away their property before death or sell it for a nominal sum to their relatives. This, it is believed, is often done for the purpose of evading the present law.

WORK OF TRAIN WRECKERS

Passenger Train Switched Into String of Freight Cars.

Peoria, Ill., March 12.—Chicago and Burlington passenger train No. 1 was wrecked by train wreckers at the Vicary coal mine switch, five miles out from the city. An investigation showed that the lock on the switch had been broken and the switch thrown. The train was going at the rate of forty miles an hour and was thrown onto the siding into a cut of loaded freight cars.

The train was in charge of Conductor Peck and Engineer Maxwell. The engineer reversed his engine when he saw the danger and with his fireman jumped. Both escaped with slight bruises. More than 200 passengers were aboard and the impact, which demolished the locomotive and several of the coal cars, resulted in several minor injuries. Miraculously no lives were lost.

The passengers were returned to this city on a special train. The majority of the passengers were bound for Missouri and Western points. The sheriff's office was notified and a posse is now scouring the country. No theory, other than proposed robbery, is advanced by the railroad officials here.

Divorce Decree Modified.

St. Louis, March 12.—The decree of divorce recently granted to Mrs. Lillian Handlan Lemp from William J. Lemp, Jr., has been modified by Judge George Hitchcock so as to make the \$6,000 annual alimony payable quarterly during the life of Mrs. Lemp or until she marries again. The alimony was also made a lien on Lemp's estate.

Game Warden Tells How He Spent Campaign Funds.

WORKED FOR STEPHENSON

Wisconsin Game Protectors Paid for Their Labor During the Senatorial Primary Campaign—Warden Stone Unable to Definitely Account for Six Hundred Dollars That He Disbursed—Investigation Hearing Extended.

Madison, Wis., March 12.—State Game Warden James W. Stone had an opportunity of explaining in detail as much as he could to the senatorial primary investigation committee what disposition he made of the \$2,500 which he received of the Stephenson campaign fund. Most of the money was handed to deputy game wardens in amounts varying from \$50 to \$500, to be used in the interest of Stephenson's campaign. There was something in excess of \$600 of the fund which Mr. Stone could not account for. Asked as to how he spent the amount unaccounted for, the witness said, "I don't know; I just spent it."

Mr. Stone said he had a similar experience as to campaign expenditures in other campaigns, and being asked when, answered: "When La Follette ran for governor the second time." Objections stopped further questioning along this line.

Since he had been game warden, for a number of years, Mr. Stone said that campaign work had been combined with his official duties.

Deputy Game Warden Craig of Superior, who was on Stone's list for \$125, told the committee that he received a check for \$82 from Stone, but thought it was to pay his expenses on a convention trip to Oklahoma. He was later advised by Mr. Stone that the \$82 was Stephenson campaign money. Craig had voted for Stephenson and that was the extent of his political activities.

The legislative steering committee voted to extend the investigation hearings to April 10.

JANER IS SENT TO PRISON

Man Who Abused Little Girl Gets Long Term.

Towson, Md., March 12.—Joseph M. Janer of Brooklyn, N. Y., has been convicted of felonious assault upon Catherine Loersch, twelve years old, also of Brooklyn, and sentenced to twenty-one years in the Maryland penitentiary, this being the maximum possible under the particular count of the indictment on which conviction was had. The case began Wednesday before Judges Burk and Duncan and was tried without a jury. It was in evidence that Janer, early in February, brought the child to Baltimore, represented her to be his daughter, and during two nights, one spent in a disreputable house and the other in a boarding house, repeatedly subjected her to most brutal ill treatment. The prosecution put witnesses on the stand to show practically every move made by Janer and the child after their arrival in Baltimore and physicians gave evidence confirmatory of the contention of the state. Janer went on the stand in his own defense and denied his guilt. The judges announced their finding after about ten minutes' deliberation. Janer's counsel made a motion for a new trial, but this was subsequently withdrawn. When sentence was pronounced Janer showed not the slightest emotion. He was taken immediately to the penitentiary in Baltimore. Janer's wife was in court throughout the trial.

WOMAN'S BODY FOUND IN CANAL

Another Mystery Confronts Police of Dayton, O.

Dayton, O., March 12.—Another baffling mystery confronts the police in the discovery of the decomposed body of an unknown white woman in the canal below the Apple street bridge. In the opinion of the officers, it must have been in the water about a month.

Harry B. Kieth, a colored boy, was rowing a boat on the canal when he noticed the body. Police headquarters was notified and the body removed to an undertaking establishment.

The woman apparently was thirty years old and well dressed. She was attired in black. She wore Romeo slippers, but over these she had a pair of new rubber shoes. The woman's under garments were in good condition. The decomposition will, it is feared, prevent the identification of the woman.

The place where the body was found supplies an ideal spot for a murder with mystery attached. The distance to the nearest house probably is more than 1,000 feet. The spot is approximately 800 feet south of the Apple street bridge.

A theory has been advanced that, providing it was a case of murder, the woman might have been rolled down a very steep hill skirting the fair grounds on the east. The fair grounds has the reputation of being a trysting place.

Six girls have been found slain in Dayton recently. Four of the murders have never been solved.

HOUSE INSURGENTS CONFER

Discuss Details of Proposed Fight on Rules.

Washington, March 12.—For more than three hours the Republican insurgents discussed behind closed doors the details of the fight they propose to make next Monday when the Sixty-first congress convenes against the adoption of the rules of the last house to govern it.

The leaders of the movement expressed entire satisfaction with the size of the meeting, claiming that at least ten more members would vote with them against the rules. It is known that much of the time at the meeting was devoted to discussion of a compromise with the organization forces.

The suggestion was made that the insurgents enter into a compromise with the regulars whereby a committee would be appointed at the beginning of the special session to revise the rules of the house. Pending the report of the committee, the rules of the last house will be in force.

The sentiment of the meeting was that the speaker should not have the power of appointing the committee in such a compromise was agreed upon.

The statement was made at the meeting that telegrams had been received from Representatives Lindberg of Minnesota, Norris of Nebraska and Hayes of California stating that they would vote with the insurgents.

After the conference the insurgents declined to discuss the conclusions reached at the meeting. It is known that the proposition compromise did not meet with general approval. A programme for the parliamentary procedure for Monday was agreed upon but it was not made public. Chairman Gardner said after the conference:

"The meeting voted unanimously to give the tariff bill right of way and decided upon a programme embodying a definite plan for a thorough revision of the rules. This programme will not be made public until congress is organized."

TAFT IS AT WORK ON HIS MESSAGE

Document Will Be Short, But to the Point.

Washington, March 12.—President Taft has begun work on the message which he will submit to congress on Monday when it convenes in special session to revise the tariff. The message will be short.

But the understanding about the White House is that it will be to the point. It may even shock the sensibilities of those who have placed the president in the ranks of the conservatives.

There is good reason for the statement that in addition to tersely pointing out the necessity for a revision of the tariff, Taft will also recommend legislation for increasing the revenues. A suggestion favoring an inheritance tax will in all probability be included in the message and a recommendation that a stamp tax be imposed upon several articles that were taxed during the Spanish-American war is not impossible.

Heavy Snow in Colorado.

Colorado Springs, Colo., March 12.—Twenty-seven inches of snow has fallen here within twenty-four hours, making the heaviest precipitation in thirteen years. Railroad traffic has not been seriously interfered with, as the fall in the mountains is much lighter.

Epidemic in Madrid.

Madrid, March 12.—Madrid has been visited by an epidemic of typhoid fever. More than 300 cases already have been removed to one hospital and there have been many deaths.

GOOD HOME MADE REMEDY

Valuable Prescription and How to Prepare it for Kidney or Bladder Trouble or Rheumatism

This is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments prove this simple mixture effective in rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure.

Report of American S. S. Union from Mch. 1, 1908 to Mch. 1, 1909

To those who are interested in Sunday school missionary work in the rural districts and to those who so generously contribute to its support, I submit this yearly report. As I review the work of the past year, this thought comes to me, do the visible results justify the expenditure of time, energy and money invested. I will allow those who read to judge. During the year I have organized 9 new schools with 27 teachers and 210 pupils, reorganized 14 schools with 45 teachers and 375 pupils. I have made 64 visits to schools, with 200 teachers and 1,835 pupils. I have distributed by sale and gift 44 Bibles and Testaments. I have also sold and given \$88.36 worth of Sunday school supplies and books. Visited 432 families, delivered 105 sermons and addresses. Some of the results were 22 professed conversions, 1 church organized, 1 prayer meeting started.

During the year I have traveled with my ponies 4044 miles. It will be impossible to show you all the visible results of a years missionary service. We cannot estimate the good done in house to house visitations, the distributing of Bibles, Testaments and other good literature, furnishing destitute families with warm clothing.

If it were possible for you to take a trip with me, I am sure you would be full of appreciation of the work. As I drive over miles and miles of new country and visit settlement after settlement, where they are wholly dependent upon me for every gospel service they have the privilege of attending and there are scores of adults and children who would be utterly destitute of Sunday school privileges, but for the S. S. Missionary and those who by their gifts keep him in the field.

There are also invisible results of a years missionary work, safe in God's keeping, ready to be revealed when every man's work shall be tried.

FINE KNIFE FOR ROOSEVELT.

Gem Studded Hunting Weapon Presented to Ex-President by a Friend.

One of the handsomest of the presents that have been pouring in upon former President Roosevelt from friends in every part of the United States who have wished to give him some token of their friendship to carry with him on his African hunting trip is a hunting knife given him by Justice James W. Gerard of the supreme bench of New York city, who is an old friend of the ex-president. The weapon is a masterpiece of jeweler's workmanship, the hilt being wrought in gold and platinum and ornamented with jewels. The top of the handle is carved in the shape of an eagle's head of solid gold. The eagle's eyes are garnets.

On one side of the hilt beneath the eagle's head is depicted a forest scene with two American Indians behind a birch tree, one of them standing, rifle in hand, the other crouching. The tree is done in gold upon a platinum background. On the reverse side is set the arms of the United States, surmounting a wishbone and intertwining tree boughs in gold. Below is the monogram "T. R." The background on this side is also of platinum. Two bears heads extending out from the handle form the guard at the base of the blade, which is of the finest steel and engraved as follows: "Presented to Theodore Roosevelt by His Friend James W. Gerard."

The knife is nearly a foot long and is said to have cost \$1,250.

CHURCH'S OWN THEATER.

Atlanta Pastor Arranges to Give "The Servant in the House."

One of the largest churches in Atlanta, the Universalist, is making preparations on a large scale to have its own theater, plays and actors. The movement was originated by the pastor, the Rev. E. Dean Ellenwood. The first play to be produced is the famous "Servant in the House." The lower floor of the church is being rapidly converted into a stage, with foot lights, scenery, curtain and other properties. The Rev. Mr. Ellenwood regarding the project says:

"Contrary to recent pulpit utterances the theater has had among all civilizations a distinctly religious origin and is today capable of great moral good."

"I should not for a moment deny that in some instances the present day theatrical productions have charm in them, but it is equally true that present day religious exercises have harnessed in them. I should not for that reason wish to abolish religion or the church nor should I wish for that reason to wipe out the theater."

Alfred Austin Revised.
Alfred Austin, in Hampton's Magazine, has a poem entitled "You and Me," in which he calls upon Americans in the last two lines as follows:

And if You will but stand by Us
Be sure that We will stand by You.
To which we hasten to reply, by way of reassurance:

Just stand by We—Us can't refuse
To stand, dear Alfred, right by Youse.

TAFT INAUGURATION INCIDENT.

How a Young Man Played Sir Walter Raleigh at Washington.

A young Virginian went Sir Walter Raleigh one better on the day President Taft was inaugurated and gained the plaudits of the crowd thereby. He was accompanied by two young girls and was seeking to find some way of fording the slushy stream that lay between them and the side walk on Pennsylvania avenue. Failing, he turned suddenly, seized one of his fair companions around the waist and waded through the brimming gutter with her. Depositing her on the sidewalk, he paddled back.

"Don't you dare do it, you horrid thing!" shrieked the other one.

"Grab her," yelled the crowd. "Don't let her get away. You're all right young fellow."

The young man did grab her, and she was borne, struggling, across the flood in a manner similar to her companion. The crowd cheered the gallant almost as lustily as they cheered Taft later. But it is a safe wager that neither of the girls ever will speak to the young man again.

A Religious Author's Statement

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." H. P. Dunn's drug store. mwf

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. mons and addresses. Some of the re-
sults were 22 professed conversions, 1
church organized, 1 prayer meeting
started.

During the year I have traveled with
my monies 4044 miles. It will be im-
possible to show you all the visible re-
sults of a years missionary service.
We cannot estimate the good done in
house to house visitations, the distrib-
uting of Bibles, Testaments and other
good literature, furnishing destitute
families with warm clothing.

If it were possible for you to take a
trip with me, I am sure you would be
full of appreciation of the work. As I
drive over miles and miles of new coun-
try and visit settlement after settle-
ment, where they are wholly depend-
ent upon me for every gospel service
they have the privilege of attending
and there are scores of adults and
children who would be utterly destitute
of Sunday school privileges, but for the
S. S. Missionary and those who by their
gifts keep him in the field.

There are also invisible results of a
years missionary work, safe in God's
keeping, ready to be revealed when
every man's work shall be tried.

FINE KNIFE FOR ROOSEVELT.

Gem Studded Hunting Weapon Pre-
sented to Ex-President by a Friend.

One of the handsomest of the pres-
ents that have been pouring in upon for-
mer President Roosevelt from friends
in every part of the United States
who have wished to give him some
token of their friendship to carry with
him on his African hunting trip is a
hunting knife given him by Justice
James W. Gerard of the supreme bench
of New York city, who is an old friend
of the ex-president. The weapon is a
masterpiece of jeweler's workman-
ship, the hilt being wrought in gold
and platinum and ornamented with
jewels. The top of the handle is
carved in the shape of an eagle's head
of solid gold. The eagle's eyes are
garnets.

On one side of the hilt beneath the
eagle's head is depicted a forest scene
with two American Indians behind a
birch tree, one of them standing, rifle
in hand, the other crouching. The tree
is done in gold upon a platinum back-
ground. On the reverse side is set the
arms of the United States, surmount-
ing a wishbone and intertwining tree
boughs in gold. Below is the mono-
gram "T. R." The background on this
side is also of platinum. Two bears
heads extending out from the handle
form the guard at the base of the
blade, which is of the finest steel and
engraved as follows: "Presented to
Theodore Roosevelt by His Friend
James W. Gerard."

The knife is nearly a foot long and
is said to have cost \$1,250.

CHURCH'S OWN THEATER.

Atlanta Pastor Arranges to Give "The
Servant in the House."

One of the largest churches in At-
lanta, the Universalist, is making pre-
parations on a large scale to have its
own theater, plays and actors. The
movement was originated by the pas-
tor, the Rev. E. Dean Ellenwood. The
first play to be produced is the famous
"Servant in the House." The lower
floor of the church is being rapidly
converted into a stage, with foot
lights, scenery, curtain and other prop-
erties. The Rev. Mr. Ellenwood re-
garding the project says:
"Contrary to recent pulpit utterances
the theater has had among all civiliza-
tions a distinctly religious origin and
is today capable of great moral good."

"I should not for a moment deny
that in some instances the present day
theatrical productions have charm in
them, but it is equally true that pre-
sent day religious exercises have harm
in them. I should not for that reason
wish to abolish religion or the church
nor should I wish for that reason to
wipe out the theater."

Alfred Austin Revised.

Alfred Austin, in Hampton's Maga-
zine, has a poem entitled "You and
Me," in which he calls upon Ameri-
cans in the last two lines as follows:

And if You will but stand by Us
Be sure that We will stand by You.
To which we hasten to reply, by way
of reassurance:

Just stand by We—Us can't refuse
To stand, dear Alfred, right by Youse.

TAFT INAUGURATION INCIDENT

How a Young Man Played Sir Walter
Raleigh at Washington.

A young Virginian went Sir Walter
Raleigh one better on the day Presi-
dent Taft was inaugurated and gain-
ed the plaudits of the crowd there-
by. He was accompanied by two
young girls and was seeking to find
some way of fording the slushy stream
that lay between them and the side-
walk on Pennsylvania avenue. Fall-
ing, he turned suddenly, seized one of
his fair companions around the waist
and waded through the brimming gut-
ter with her. Depositing her on the
sidewalk, he paddled back.

"Don't you dare do it, you horrid
thing!" shrieked the other one.
"Grab her," yelled the crowd. "Don't
let her get away. You're all right
young fellow."

The young man did grab her, and
she was borne, struggling, across the
flood in a manner similar to her com-
panion. The crowd cheered the gal-
lant almost as lustily as they cheered
Taft later. But it is a safe wager that
neither of the girls ever will speak to
the young man again.

A Religious Author's Statement

Rev. Joseph H. Fesperman, Salis-
bury, N. C., who is the author of sev-
eral books writes: "For several years
I was afflicted with kidney trouble and
last winter I was suddenly stricken with
a severe pain in my kidneys and was
confined to bed eight days unable to
get up without assistance. My urine
contained a thick white sediment and I
passed same frequently day and night.
I commenced taking Foley's Kidney
Remedy, and the pain gradually abated
and finally ceased and my urine became
normal. I cheerfully recommend Fol-
ey's Kidney Remedy." H. P. Dunn's

GREAT BLESSING TO MANY PEOPLE

May Mean Less Sickness Here in Brainerd When Known

GOOD HOME MADE REMEDY

Valuable Prescription and How to Prepare it for Kidney or Bladder Trouble or Rheumatism

This is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people.

The druggists here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce, and Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments prove this simple mixture effective in rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure.

Those who suffer and are accustomed to purchase a bottle of medicine should not let a little inconvenience interfere with making this up.

Report of American S. S. Union from Mch. 1, 1908 to Mch. 1, 1909

To those who are interested in Sunday school missionary work in the rural districts and to those who so generously contribute to its support, I submit this yearly report. As I review the work of the past year, this thought comes to me, do the visible results justify the expenditure of time, energy and money invested. I will allow those who read to judge. During the year I have organized 9 new schools with 27 teachers and 210 pupils, reorganized 14 schools with 45 teachers and 375 pupils. I have made 64 visits to schools, with 200 teachers and 1,835 pupils. I have distributed by sale and gift 44 Bibles and Testaments. I have also sold and given \$88.36 worth of Sunday school supplies and books. Visited 432 families, delivered 105 sermons and addresses. Some of the results were 22 professed conversions, 1 church organized, 1 prayer meeting started.

During the year I have traveled with my ponies 4044 miles. It will be impossible to show you all the visible results of a years missionary service. We cannot estimate the good done in house to house visitations, the distributing of Bibles, Testaments and other good literature, furnishing destitute families with warm clothing.

If it were possible for you to take a trip with me, I am sure you would be full of appreciation of the work. As I drive over miles and miles of new country and visit settlement after settlement, where they are wholly dependent upon me for every gospel service they have the privilege of attending and there are scores of adults and children who would be utterly destitute of Sunday school privileges, but for the S. S. Missionary and those who by their gifts keep him in the field.

There are also invisible results of a years missionary work, safe in God's keeping, ready to be revealed when every man's work shall be tried.

7TH AMENDMENT ONE OF THE BEST

City Attorney Ryan Telis of Real
Object of Seventh Amend-
ment to City Charter

EXPLAINS THE PRESENT LAW

Attorney Makes Clear That the
Amendment is not so Rev-
olutionary as Some Claim

There has been so much difference of opinion and talk in general about the seventh amendment to the city charter, that relating to the necessary notice to the city of defective streets or walks before the city is liable for damages, THE DISPATCH requested City Attorney M. E. Ryan to give an interview on the scope and effect of that proposed change in the city charter and he kindly responded as follows:

"I consider the 7th amendment to our charter one of the best to be submitted at the next election, and, if rightfully understood by the voter will, in my opinion be adopted. As the law is at present in a suit for an injury caused by a defective walk the plaintiff must show that the city had actual notice of the defect, or that the defect existed for such a length of time that, in the exercise of reasonable care, the city should have known of its existence; the latter being called constructive notice.

"The only effect the adoption of the amendment will have is that it does away with the so-called constructive notice. Everybody understands the impossibility of the city employing men to patrol the streets to find defects, but if this amendment becomes effective every citizen will, to a large extent, be interested in giving notice to the city of the defects as they are discovered, and when defects are once reported to the city there can be no reason or excuse for the city not removing them immediately.

"In construing a like provision in the city charter in the city of Waseca, our supreme court held that such notice need not be given by the party claiming damages, but if given by any person, it is sufficient. All of the amendments are good and necessary, and I trust the people will adopt them."

MAD DOG IN MILL DISTRICT

Animal Belonging to Tony
Schwindemann Attacks the
Children of its Owner

IS KILLED WITH A CLUB

Children Escape Unhurt and Mr.
Schwindemann Terminates
the Dog's Career

A dog belonging to Tony Schwindemann, of Northeast Brainerd, went mad yesterday and attacked Mr. Schwindemann's children. They escaped the dog, however, without being bitten. Mr. Schwindemann did not have time to get a gun but grabbed up a club and succeeded in dispatching the animal with that. This makes about a half dozen cases of rabies in and around Brainerd in the past few months and still some citizens seem to think they are justified, so far as possible in evading the law regarding the confining of dogs. Mr. Schwindemann's dog, according to the reports received by the Dispatch, was at large, despite the order of the board of health. A heavy fine or imprisonment can be imposed for the violation of the orders of the health officer in this respect, the same as for any other misdemeanor, and the police say that there may be some arrests if the order is not complied with.

How can any person risk taking some unknown cough remedy when Foley's Honey and Tar costs them no more? It is a safe remedy, contains no harmful drugs, and cures the most obstinate coughs and colds. Why experiment with your health? Insist upon having the genuine Foley's Honey and Tar. H. P. Dunn's drug store. mwf

A Fine Concert

The concert given by Mrs. C. Hougstad and Miss Kristine Larson, at the Danish-Norwegian church Wednesday evening was well attended and heartily enjoyed by all. The program was varied and interesting throughout and both the piano numbers of Mrs. Hougstad and the vocal solos of Miss Larson won high tribute from the musicians who were present.

Foley's Honey and Tar cures coughs quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. H. P. Dunn's drug store. mwf

Daniel Persson, of Dykeman, had his left hand terribly injured in a power wood saw Thursday afternoon. In some way while sawing wood the hand got against the swiftly revolving saw mangleing it badly. Dr. J. L. Camp, of this city was telephoned for and drove out as rapidly as possible, reaching there shortly after 7 o'clock. He dressed the injured member and Mr. Persson will be brought to St. Joseph's hospital in this city this afternoon. Dr. Camp states that he will undoubtedly save the little finger, but that the thumb and three fingers are gone. Mr. Persson is an elderly man who has resided at Dykeman, about fifteen miles southeast of Brainerd, for over 20 years and has many friends who will regret to hear of his misfortune.

MUSIC AND DRAMA

At the Unique

If you enjoy a good hearty laugh, the kind that stays with you long enough to cure the blues, you should not fail to attend the Unique theatre and witness three pictures of high class comedy, namely "Schooldays," "The Tyrant's Dream" and "The Tenderfoot"—subjects which are credited to the Selig Polyscope Co., as being the best acts in comedy produced for some time. Then if you want a glimpse of a well known Italian city they offer as a subject the "Grand Canal, Venice"—which gives you an idea of Venetian life and proves purely educational. They further offer the excellent picture entitled "The Miser" which is a drama highly pleasing and interesting to both young and old. Miss Graham will sing an illustrated song "A Good Old Dollar Bill" and as a solo "I Wonder Who is Kissing Her Now." Do not forget the popular Saturday afternoon matinee for ladies and children at which admission is only 5c.

Bijou

"The Adventuress" which is holding the vaudeville boards at the Bijou the last part of this week is one of the strongest and most sensational acts yet put on at this theatre, yet it has a strong moral which causes much comment. It will be repeated tonight and tomorrow night.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache or irregularities that if neglected might result in Bright's disease or diabetes. H. P. Dunn's drug store. mwf

WOULD NOT REDUCE PRICE

Gifford Pinchot Discusses Removal of Tariff on Lumber.

Washington, March 12.—A removal of the tariff on lumber would neither reduce the price to the consumer nor preserve our forests, according to the opinion expressed by Gifford Pinchot, chief of the United States forest service, in a letter to Sen. E. Payne, chairman of the house ways and means committee, just made public. Mr. Pinchot holds that the fundamental question at issue in the lumber tariff is forest conservation. He says that he would favor a removal of the tariff if he were of the opinion, which he thinks is the cause of the demand for free lumber, that it would offer a way to protect our forests. "But I am unable to see," he says, "how free lumber will promote forestry."

"There is only one way to save our forests," he adds. "That is to see that they are kept at work growing new crops of timber as the old are cut away."

Mr. Pinchot says that "most of the lumber we now import comes from Canada, as most of it would if the duty were taken off. We are importing from Canada only about 2 per cent as much lumber as we are cutting from our own forests. It is not likely that under free lumber more than 5 per cent as much would come from Canada as we would cut at home."

The chief forester thinks it "highly important that we should have free pulp wood in the future as in the past, and that Canada should impose no export duty upon pulp wood. In this respect," he continues, "the pulp and paper-making industry is in a different position from the other great wood-using industries of the United States. The latter can be supplied wholly from our own forests, while the former must have free access to the Canadian spruce forests so long as spruce is the chief pulp wood." He declares that ground wood should be admitted free "provided that it comes from a country which does not in any way restrict the exportation of wood pulp or ground wood and that there should be a reduction in the duty on news paper providing that it comes from a country which does not in any way restrict the exportation of pulp wood, wood pulp or printing paper."

REFUSE TO GRANT DEMANDS OF MEN

Anthracite Operators Turn Down Proposal of Miners.

RENEW PRESENT AGREEMENT

Mine Owners Want the Existing Scale Renewed for Another Term of Three Years—Mine Workers Expected Such a Proposition, as They Had Learned That Operators Were Against Making Concessions.

Philadelphia, March 12.—The anthracite coal operators met the committee of hard coal miners in the Reading Terminal building here and flatly refused to grant the men any of the demands they laid before them and at the same time proposed to the mine workers that the present agreement, which will expire March 31, be renewed for another term of three years. This decision was not unexpected by the mine workers, as they had long ago learned that the operators were against making any concessions. Thomas Lewis, national president of the United Mine Workers of America, declined to comment on the developments of the day beyond stating that he and his committeemen will meet to discuss the situation. The miners will meet the operators again.

While President Lewis has not announced what he will do, it is believed that he had prepared himself for the result of the day's conference and that he will impart his intentions to his fellow committeemen and perfect the details of the next move before they again go into conference. Those who have followed the trend of affairs in the anthracite region believe it will be useless for the miners to further insist upon any material change in the present agreement, and it is expected that the miners' committee will call a convention from three districts to take up the operators' refusal and counter proposition. What the outcome will be is a matter of conjecture.

So far as could be learned from the miners, a majority of the workers are opposed to a strike, because they feel that they are not strongly enough entrenched to carry on a campaign of the magnitude of that of 1900 and 1902.

WANTED TO LYNCH JUNKEN

Crowd at Burlington Tries to Get Clara Rosen's Slayer.

Burlington, Ia., March 12.—John Junken, slayer of Clara Rosen of Ottumwa, narrowly escaped lynching by a crowd that gathered about the police station where Junken was held for a time while on the way to Fort Madison prison, and accompanied the prisoner to the train.

Two sheriffs and a squad of policemen guarded the negro, and they had to fight a way through the crowd. Chief of Police Hiltz knocked one man down and all the officers drew revolvers to protect the prisoner, who was finally placed on a train. A shower of stones crashed against the coach, shattering windows near Junken, but he was finally taken out of the city and lodged in Fort Madison prison.

MASTERPIECE OF ORATORY

Argument of General Washington in Defense of the Coopers.

Nashville, Tenn., March 12.—The fourth day of the arguments in the Cooper-Sharp trial for the murder of former United States Senator Carmack closed with General Washington of the defense in the middle of his argument and two more attorneys to follow him. General Washington finished his ninth hour of argument when court adjourned for the day and he had not concluded his address. He will be followed by Judge Anderson, who is expected to make the main argument for the defense. Then Attorney General McCann will close for the state. Judge Anderson says he will require about six or eight hours for his speech, while McCann declares that four hours will do him.

Judge Hart again requested the attorneys to submit instructions for the charge and complained that they were slow about complying.

General Washington's argument was brilliant in word painting, metaphor, appeal and invective. He attacked the state's counsel and singled out Attorney General J. B. Garner as his special victim. Garner is reputed to have nearly as fiery a temper as has Washington, so counsel for the state insisted upon Garner's withdrawing from the room during Washington's address.

The speaker laid special stress upon the social standing and breeding of the defendants and declared that men of such families killed only in defense of life or honor. His speech was a masterpiece of oratory and had a noticeable effect upon the jury.

FRENCH COLUMN DEFEATED

Lost Heavily in Battle With Moors in Africa.

Bordeaux, March 12.—Passengers who have arrived here on the steamer Afrique from Senegal, a French colonial dependency in Western Africa, report that Colonel Gouraud's column recently suffered a severe defeat in that district after several sharp engagements in which they lost heavily. The Moors captured several machine guns from the French and a large amount of specie.

Three thousand tribesmen, armed with magazine rifles, were threatening Podor, a French military post on the Senegal.

OF IMPORTANCE TO LABOR WORLD

Decision by District of Columbia Court.

IN NOTED INJUNCTION CASE

Appellate Court Holds That American Federation of Labor Hereafter May Freely Refer to the Boycott Against the Buck Stove and Range Company of St. Louis, Except by Inclusion in the "We Don't Patronize" List.

Washington, March 12.—The American Federation of Labor hereafter may freely refer to the boycott against the Buck Stove and Range company of St. Louis, except by inclusion in the "We Don't Patronize List."

This, in substance, of widespread importance to the labor world, to manufacturers and to newspapers generally, is the sweeping decision handed down by the court of appeals of the District of Columbia in the noted injunction case of the Buck Stove and Range company against the American Federation of Labor, which has been before the courts of the District of Columbia in various phases for months.

In a recent decision by Justice Gould of the supreme court of the District of Columbia the American Federation of Labor and the officers, Messrs. Gompers, Mitchell, Morrison and others were enjoined from conspiring to boycott the Buck Stove and Range company and from printing or publishing or distributing, through the mails or otherwise, any copy of the "Federationist" or other publication referring to the complainant, its business or product in the "We Don't Patronize" or "Unfair" list.

Modifies the Decree.

The latest decision, which was by Justice Robb, modifies and affirms the decree of Justice Gould. The court holds that the decree should be modified to the extent that it shall only restrain the defendants from conspiring of combining to boycott the business of the Buck Stove and Range company, or threatening or declaring any boycott or assisting therein, and from printing the name of the complainant, its business or product in the "We Don't Patronize" list or "Unfair" list of defendants in furtherance of any boycott against complainant's business or product and from interfering either in print or otherwise with complainant's business as in "We Don't Patronize" or "Unfair" list in furtherance of a boycott.

The court holds that the defendants cannot be restrained from all publications referring to the Buck Stove and Range company, but only such as are made in furtherance of an illegal boycott.

In a partially dissenting opinion in which he says that he is unable to concur entirely in the modified decrees of Justice Robb, Chief Justice Shepard expressed the opinion that the decree should be modified "so as to restrain the acts only by which other persons have been or may be coerced into ceasing from business relations with the Buck Stove and Range company; but so as not to restrain the publication of the name of that company in the 'We Don't Patronize' column of the American Federationist, no matter what the object of such publication may be suspected or believed to be."

Justice Van Ordeil concurred fully in the conclusion reached by Justice Robb, but by a different process of reasoning.

AGAINST THE OIL TRUST

Government Abandons All But Two of Its Cases.

Washington, March 12.—All of the criminal prosecutions of the Standard Oil Company of Indiana pending in the Northern district of Illinois, with the exception of two cases, have been abandoned by the government as the result of Judge Anderson's decision, it was announced.

The two cases which may still be pushed are those involving oil shipments from Whiting, Ind., to Evansville, Ind., over the Chicago and Eastern Illinois railroad by way of Dolton Junction, Ill. The most the government could hope for in these cases is a fine of \$1,000,000. The case pending against the Standard Oil company in the Western district of Tennessee probably will not be affected by the decision.

Plumbers Will Be Enjoined.

Milwaukee, March 12.—About forty injunctions will be served on as many master plumbers in Milwaukee at the instigation of District Attorney August C. Backus as a result of the report of the grand jury in February. Mr. Backus will proceed against the plumbers, alleging an illegal combination in restraint of trade.

Barrymore-Colt Wedding.

Boston, March 12.—Miss Ethel Barrymore, the actress, and Russell Griswold Colt of Bristol, R. I., whose engagement was announced this week, will be married in New York during Holy Week (April 4-10), according to a statement made by the prospective bridegroom.

MOVEMENT IS FORMIDABLE

Directed Against Secretary Wilson's Recent Bleached Flour Decision.

Washington, March 12.—A formidable movement, the purpose of which is to induce Secretary of Agriculture Wilson to modify or reverse his recent decision in which he held that flour bleached by nitrogen peroxide is an adulterated product under the food and drug act, is on foot. Hundreds of letters from millers of bleached flour in all parts of the country are being received daily by the secretary asking him to refer his ruling to the referee board of scientific experts for review. In numerous instances the communications are sent to members of congress and by them referred to the secretary of agriculture without any recommendation.

That Secretary Wilson resolutely will stand by his decision is indicated by the fact that in his replies to the various communications he declares that he can see no useful purpose in referring the question of bleached flour to the referee board.

This body, he states, is already overburdened with important matters, and he adds that the courts are open to those who want to appeal from his decision. "I am utterly hostile to having the people's foods tampered with," declared the secretary. "We want to know that what we eat is the pure product."

BAPTIE WINS MILE RACE

But Loses Quarter-Mile Contest to Wood of New York.

Cleveland, O., March 12.—Norval Baptie of North Dakota, world's ice skating champion, surrendered the quarter-mile honors to Morris Wood of New York in the opening series of professional skating races here. He retained, however, the one-mile mark, defeating Wood and Nilsson. Charles Rankin retained his honors in the fifty-yard dash. No records were broken. The five professional skaters with world's records that will take part in the three nights' events scheduled include Baptie, Wood, Nilsson, Skinnerud and Rankin.

KILLED BY AN AUTOMOBILE

Wife of a Wealthy Man Run Down in New York.

New York, March 12.—Mrs. Leopold Baumann, wife of a wealthy New York furniture dealer, was struck and killed by an automobile owned by Tully C. Estee, a flour merchant. Mr. and Mrs. Estee, with a party of friends, were in the car at the time.

The automobile was stopped at once and its occupants gave every possible attention to their victim. The police placed the chauffeur under arrest. Mr. Estee said the accident was unavoidable. Both the Estees and the Baumanns live in Mount Vernon.

Mayor of Los Angeles Resigns.

Los Angeles, Cal., March 12.—Mayor A. C. Harper has resigned. He declined to explain. The mayor has been a candidate for re-election at a special election called for March 26, under the recall clause of the city charter. He had been recalled from office by a petition signed by 10,000 voters because of various allegations of misconduct made against him.

Engineer and Fireman Killed.

Winnipeg, March 12.—Word has reached here that Donald McQuarrie, engineer, and Cecil Glover, fireman, were killed by the derailment of an engine in the mountain section of the Canadian Pacific railway near Grand Forks. The former was scalded to death and the latter crushed under his engine.

SANITARIUM IS DESTROYED

One Inmate Burned to Death and a Number of Others Injured.

Charlotte, N. C., March 13.—In a fire which destroyed Biggs' sanitarium at Greensboro, Frank Greene of Goldston, Chatham county, was burned to death and a number of other inmates were more or less seriously injured. Four women jumped from second-story windows and escaped alive, one of them having an arm broken. The most miraculous escape was that of the infant of Dr. Biggs, proprietor of the sanitarium, which, though thrown from a second-story window, escaped without a scratch.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Modifies the Decree.

The latest decision, which was by Justice Robb, modifies and affirms the decree of Justice Gould. The court holds that the decree should be modified to the extent that it shall only restrain the defendants from conspiring of combining to boycott the business of the Buck Stove and Range company, or threatening or declaring any boycott or assisting therein, and from printing the name of the complainant, its business or product in the "We Don't Patronize" list or "Unfair" list of defendants in furtherance of any boycott against complainant's business or product and from interfering either in print or otherwise with complainant's business as in "We Don't Patronize" or "Unfair" list in furtherance of a boycott.

The court holds that the defendants cannot be restrained from all publications referring to the Buck Stove and Range company, but only such as are made in furtherance of an illegal boycott.

In a partially dissenting opinion in which he says that he is unable to concur entirely in the modified decrees of Justice Robb, Chief Justice Shepard expressed the opinion that the decree should be modified "so as to restrain the acts only by which other persons have been or may be coerced into ceasing from business relations with the Buck Stove and Range company; but so as not to restrain the publication of the name of that company in the 'We Don't Patronize' column of the American Federationist, no matter what the object of such publication may be suspected or believed to be."

Justice Van Ordeil concurred fully in the conclusion reached by Justice Robb, but by a different process of reasoning.

AGAINST THE OIL TRUST

Government Abandons All But Two of Its Cases.

Washington, March 12.—All of the criminal prosecutions of the Standard Oil Company of Indiana pending in the Northern district of Illinois, with the exception of two cases, have been abandoned by the government as the result of Judge Anderson's decision, it was announced.

The two cases which may still be pushed are those involving oil shipments from Whiting, Ind., to Evansville, Ind., over the Chicago and Eastern Illinois railroad by way of Dolton Junction, Ill. The most the government could hope for in these cases is a fine of \$1,000,000. The case pending against the Standard Oil company in the Western district of Tennessee probably will not be affected by the decision.

Plumbers Will Be Enjoined.

Milwaukee, March 12.—About forty injunctions will be served on as many master plumbers in Milwaukee at the instigation of District Attorney August C. Backus as a result of the report of the grand jury in February. Mr. Backus will proceed against the plumbers, alleging an illegal combination in restraint of trade.

Barrymore-Colt Wedding.

Boston, March 12.—Miss Ethel Barrymore, the actress, and Russell Griswold Colt of Bristol, R. I., whose engagement was announced this week, will be married in New York during Holy Week (April 4-10), according to a statement made by the prospective bridegroom.

MOVEMENT IS FORMIDABLE

Directed Against Secretary Wilson's Recent Bleached Flour Decision.

Washington, March 12.—A formidable movement, the purpose of which is to induce Secretary of Agriculture Wilson to modify or reverse his recent decision in which he held that flour bleached by nitrogen peroxide is an adulterated product under the food and drug act, is on foot. Hundreds of letters from millers of bleached flour in all parts of the country are being received daily by the secretary asking him to refer his ruling to the referee board of scientific experts for review. In numerous instances the communications are sent to members of congress and by them referred to the secretary of agriculture without any recommendation.

That Secretary Wilson resolutely will stand by his decision is indicated by the fact that in his replies to the various communications he declares that he can see no useful purpose in referring the question of bleached flour to the referee board.

This body, he states, is already overburdened with important matters, and he adds that the courts are open to those who want to appeal from his decision. "I am utterly hostile to having the people's foods tampered with," declared the secretary. "We want to know that what we eat is the pure product."

BAPTIE WINS MILE RACE

But Loses Quarter-Mile Contest to Wood of New York.

Cleveland, O., March 12.—Norval Baptie of North Dakota, world's ice skating champion, surrendered the quarter-mile honors to Morris Wood of New York in the opening series of professional skating races here. He retained, however, the one-mile mark, defeating Wood and Nilsson. Charles Rankin retained his honors in the fifty-yard dash. No records were broken. The five professional skaters with world's records that will take part in the three nights' events scheduled include Baptie, Wood, Nilsson, Skinnerud and Rankin.

KILLED BY AN AUTOMOBILE

Wife of a Wealthy Man Run Down in New York.

New York, March 12.—Mrs. Leopold Baumann, wife of a wealthy New York furniture dealer, was struck and killed by an automobile owned by Tully C. Estee, a flour merchant. Mr. and Mrs. Estee, with a party of friends, were in the car at the time.

The automobile was stopped at once and its occupants gave every possible attention to their victim. The police placed the chauffeur under arrest. Mr. Estee said the accident was unavoidable. Both the Estes and the Baumanns live in Mount Vernon.

Mayor of Los Angeles Resigns.

Los Angeles, Cal., March 12.—Mayor A. C. Harper has resigned. He declined to explain. The mayor has been a candidate for re-election at a special election called for March 26, under the recall clause of the city charter. He had been recalled from office by a petition signed by 10,000 voters because of various allegations of misconduct made against him.

Engineer and Fireman Killed.

Winnipeg, March 12.—Word has reached here that Donald McQuarrie, engineer, and Cecil Glover, fireman, were killed by the derailment of an engine in the mountain section of the Canadian Pacific railway near Grand Forks. The former was scalded to death and the latter crushed under his engine.

SANITARIUM IS DESTROYED

One Inmate Burned to Death and a Number of Others Injured.

Charlotte, N. C., March 13.—In a fire which destroyed Biggs' sanitarium at Greensboro, Frank Greene of Goldston, Chatham county, was burned to death and a number of other inmates were more or less seriously injured. Four women jumped from second-story windows and escaped alive, one of them having an arm broken. The most miraculous escape was that of the infant of Dr. Biggs, proprietor of the sanitarium, which, though thrown from a second-story window, escaped without a scratch.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of this now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and mallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend
